

# Piraterie et brigandage maritimes dans le monde

Worldwide maritime piracy and robbery

---

BILAN ANNUEL **2019**  
Annual report

Vice amiral d'escadre/  
Admiral

Jean-Louis LOZIER

Préfet maritime de l'Atlantique  
et commandant de la zone  
maritime Atlantique

Maritime Prefect of the  
Atlantic and Head of the  
Atlantic Maritime Area

*Hébergé au sein de la préfecture maritime de l'Atlantique, le MICA Center a été créé en 2016 pour répondre aux enjeux stratégiques posés par les menaces affectant la sûreté des espaces maritimes.*

*Ce centre à compétence mondiale collecte et relaie les informations utiles vers l'ensemble des acteurs de l'industrie maritime (transport, croisières, activités industrielles, énergies renouvelables...). Il s'appuie sur l'expertise et la neutralité de la Marine nationale et développe différents partenariats dans le monde pour accroître et consolider les informations dont il dispose.*

*Trois ans après sa création, le MICA Center atteint sa maturité et publie son premier bilan annuel sur la piraterie et le brigandage dans le monde.*

*Ce bilan recense et caractérise les faits relevés au cours de l'année 2019 qui affectent la sûreté maritime. Reprenant les différents rapports déjà publiés par le MICA Center, à cadence hebdomadaire ou mensuelle, il analyse les tendances observées ainsi que l'évolution des modes d'action et du recours à la violence, dans les zones touchées.*

*Pour l'année 2019, le MICA Center constate ainsi une légère hausse du nombre d'attaques relevées dans le golfe de Guinée et l'augmentation sensible du nombre de personnes enlevées. Il confirme une relative stabilité du nombre d'événements en Asie du Sud Est et le maintien à un niveau faible de la piraterie au large de la Corne de l'Afrique. Il observe enfin une recrudescence du brigandage dans l'arc des Caraïbes.*

*Je vous souhaite une excellente lecture de ce premier bilan annuel du MICA Center sur la piraterie et le brigandage dans le monde.*

*Based within the Atlantic Maritime Prefecture, the MICA centre was founded in 2016 to address the strategic issues raised by threats to the security of maritime areas.*

*This worldwide centre collects and relays information to the benefit of the maritime industry (maritime trade, cruises, industrial activities, renewable energies, etc.). It relies upon the expertise and neutrality of the French Navy and has developed a number of worldwide partnerships to strengthen its own resources.*

*Since its launch three years ago, it has become fully operational and has just published this first annual report on global piracy and robbery.*

*This report identifies and describes the incidents observed in 2019 that impacted maritime security. Building upon the different reports already released every week and month by the MICA Centre, its goal is to provide an analysis of the trends observed and to describe the evolution of the operating modes and the use of violence in affected areas.*

*Regarding 2019, the MICA Centre underlines a slight increase in the number of attacks perpetrated in the Gulf of Guinea and the sharp increase of the number of people abducted. At the same time the number of attacks in Southeast Asia remains roughly stable. It confirms that piracy at a low level in the Horn of Africa. It observes the rise of the number of robberies within the Caribbean region.*

*I hope you enjoy reading this first annual review of the MICA Centre on global piracy and robbery.*

Capitaine de corvette  
Lieutenant Commander  
Gilles CHEHAB

Commandant du MICA Center  
Head of the MICA Centre

*Créé en 2016, le Maritime Information Cooperation & Awareness Center (MICA Center) veille sur le trafic maritime à l'échelle mondiale et recense les événements affectant la sûreté maritime. Pôle d'expertise reconnu, il s'adapte en permanence aux caractéristiques particulières de chaque zone et aux évolutions de la menace qui pèse sur le trafic maritime mondial en ajustant son organisation en conséquence. Grâce à sa structure modulaire, il est en mesure de rechercher les synergies adaptées pour faciliter les échanges et diffuser rapidement et directement les informations utiles aux acteurs qui en ont besoin.*

*Organe de centralisation des alertes en cas d'attaque, il diffuse rapidement l'information utile vers les navires alentours pour leur permettre de se protéger, ainsi que vers les centres compétents pour déclencher une intervention chaque fois que possible. Centre d'analyse, il évalue la situation sécuritaire dans les différentes zones grâce aux signalements volontaires des différents acteurs de la communauté maritime mondiale. Le MICA Center publie des bilans réguliers au profit des partenaires qui s'abonnent à ses services gratuits. Ce rapport annuel en fait la synthèse.*

*Concernant le golfe de Guinée, le MICA Center s'appuie sur sa cellule<sup>1</sup> contribuant à l'accord de coopération franco-britannique du Maritime Domain Awareness for Trade-Gulf of Guinea (MDAT-GoG). Concernant la corne nord-est de l'Afrique, il accueille le Maritime Security Centre-Horn of Africa (MSCHoA), placé sous le commandement de l'opération européenne Atalanta basé à Rota en Espagne. La circulation de l'information est facilitée par des réseaux de communication adaptés et sécurisés, les partages sont rapides et directs.*

*Les liens de confiance qui ont été établis avec l'industrie maritime et les autres centres d'expertise (UKMTO, COVAM, IFC Singapour, CRFIM Madagascar, IFC IOC New Delhi)<sup>2</sup> permettent des échanges de qualité tout au long de l'année. Ils contribuent à l'enrichissement des informations dont dispose le MICA center et à l'élaboration de ce document.*

*Ce bilan 2019 de la piraterie et du brigandage analyse les deux types de crimes. Quels que soient les lieux où ces crimes sont commis, ceux-ci restent motivés par la recherche d'un profit financier. Leur forme varie selon les régions ou les saisons :*

- ▶ *l'enlèvement de membres d'équipage à des fins de rançon ;*
- ▶ *le détournement de navires pour servir de bâtiment mère ;*
- ▶ *le vol de la cargaison et en particulier le soutage (« bunkering ») pour les cargaisons d'hydrocarbures ;*
- ▶ *les vols avec violence ou larcins dont les criminels peuvent tirer profit (accastillage, biens personnels de l'équipage...).*

*Tous les types d'armement maritime, quels que soient leur secteur d'activité ou leur nationalité, peuvent souscrire un protocole de coopération navale volontaire avec la Marine nationale. Ce partenariat permet aux signataires de bénéficier périodiquement ou ponctuellement d'informations et d'analyses sécuritaires produites par le MICA center.*

<sup>1</sup> L'accord MDAT-GoG entre la Marine nationale et la Royal Navy pour un mécanisme de report d'information s'appuie sur deux cellules : une à Brest (FR) et une à Portsmouth (UK).

<sup>2</sup> United Kingdom Maritime Trade Operations, Centro de Operaciones y Vigilancia de Accion Maritima (Espagne), Information Fusion Centre Singapour, Centre Régional de Fusion de l'Information Maritime Madagascar, Information Fusion Centre for the Indian Ocean Region (Inde)

Founded in 2016, the Maritime Information Cooperation & Awareness Centre (MICA Centre) is dedicated to monitoring global maritime traffic and identifying incidents that affect maritime security. As a recognised centre of expertise, it constantly adapts to the specific features of each area. It also adapts to the evolution of the threat to world maritime traffic through the appropriate adaptation of its organisation. Thanks to its network, it is able to activate appropriate synergies to facilitate interactions and quickly and directly forward relevant information to those concerned.

In the event of an attack, it works as a central warning unit providing quick access to useful information to ships sailing in the vicinity, thus reinforcing their own protection capacity. Relevant information is also relayed to the appropriate authorities to engage an intervention whenever it is possible. As an analysis centre, it assesses the security situation in the various areas and publishes regular reports to the benefit of partners who subscribe to its free services.

As regards the Gulf of Guinea, the centre relies on its cell<sup>1</sup> contributing to the Franco-British cooperation agreement of the Maritime Domain Awareness for Trade-Gulf of Guinea (MDATGoG). Concerning the Northeast Horn of Africa, it hosts the Maritime Security Centre-Horn of Africa (MSCHoA), under the command of the European operation Atalanta based in Rota, Spain. Exchange of information is made easier thanks to adapted and safe communication networks, allowing quick and direct sharing.

The trust-based relationships that have been built both with the maritime industry and other centres of expertise (UKMTO, COVAM, IFC Singapore, CRFIM Madagascar, IFC IC New Delhi)<sup>2</sup> result in a high standard of exchange throughout the year. Such relationships widen the pool of information available to the MICA center and helped to create this document.

This 2019 report on piracy and robbery analyses these two types of crimes, whether they are committed in international waters in the case of piracy or in the territorial waters of coastal states in the case of robbery. Regardless of where these crimes are perpetrated, financial profit remains the main motivation, whereas operating modes vary depending upon the region or time of year:

- ▶ Kidnapping of crew members for ransom;
- ▶ Hijacking of vessels to use as mother ships;
- ▶ Cargo robbery and particularly bunkering as regards oil cargos;
- ▶ Robbery or theft of goods that will be sold (ship supplies and chandlery, crew's personal belongings...).

All types of maritime shipowners, regardless of their sector of activity or nationality, can subscribe to a maritime voluntary cooperation with the French Navy. This partnership allows the signatories to benefit periodically or on demand from security information and assessments produced by the MICA centre.

---

<sup>1</sup> The MDAT-GoG agreement between the French Navy and the Royal Navy for a reporting information process is made up of two units: one in Brest (FR) and one in Portsmouth (UK).

<sup>2</sup> United Kingdom Maritime Trade Operations, Centro de Operaciones y Vigilancia de Accion Maritima (Spain), Information Fusion Centre Singapore, Centre Régional de Fusion de l'Information Maritime Madagascar, Information Fusion Centre for the Indian Ocean Region (India).

# 1 - INTRODUCTION

Au plan quantitatif, le nombre total d'événements liés à la piraterie et au brigandage reste stable depuis quatre ans. Avec 360 événements reportés dans le monde, il reste près de deux fois inférieur aux sommets atteints en 2011 au plus fort des attaques au large de la Somalie.

Dans le golfe de Guinée, l'insécurité maritime liée à la piraterie et au brigandage reste élevée, et plus particulièrement au fond du golfe où elle est caractérisée par une recrudescence des enlèvements et le maintien d'un niveau de violence élevé.

En océan Indien, après le pic de 2011, elle se maintient à un niveau faible. Au large des côtes somaliennes, le nombre d'événements reste marginal.

En 2019, une légère hausse des événements recensés en Asie du Sud Est a été constatée. On observe en particulier de nouveau des attaques menées lors des transits dans le dispositif de séparation du trafic (DST) à l'ouvert du détroit de Malacca.

En Amérique latine, la recrudescence du phénomène constatée depuis trois ans se confirme. En particulier, les larcins augmentent dans les Caraïbes et touchent essentiellement la plaisance.

From a quantitative point of view, the total number of incidents related to piracy and robbery has remained stable over the past four years. With 360 incidents reported worldwide, it remains almost twice lower than the previous record of 2011, which marked a peak for attacks off the coast of Somalia.

Maritime insecurity related to piracy and robbery remains high in the Gulf of Guinea, particularly at the upper angle of the Gulf where incidents are marked by the increase of the number of kidnapping and a critical level of violence.

In the Indian Ocean, maritime insecurity remains at a low level since the 2011. Off the Somali coasts, the number of incidents remains limited.

A slight increase was observed in the number of incidents affecting Southeast Asia in 2019. Attacks are again being reported during transits through Singapore's traffic separation scheme (TSS).

In Latin America, the number of attacks has continued to increase in the last three years. One notes that in Carabean, the number of thefts has sharply increased and mainly affects pleasure boating.

## Définitions de la piraterie et du brigandage | Definitions of piracy and robbery

Piraterie Piracy	acte de violence commis à des fins privées, en haute mer (hors eaux territoriales) act of violence perpetrated for private purposes in open sea areas (beyond territorial waters)
Brigandage Robbery	acte illicite, commis à des fins privées contre un navire, ou contre des personnes ou des biens à son bord, dans les eaux intérieures, les eaux archipélagiques ou la mer territoriale d'un État unlawful act, committed for private purposes against a ship, or against persons or property on board, in inland waters, archipelagowaters or the territorial sea of a state

## Définitions des approches maritimes | Definitions of maritime approaches

Le terme d'approches maritimes désigne dans ce document la portion d'espace maritime incluant la Zone Économique Exclusive (ZEE) située en face d'un pays côtier donné. Se situant en général aussi au large d'autres États, cet espace peut connaître des attaques de pirates venant d'autres pays que celui-ci.

In this document, maritime approaches designate the portion of maritime space including the Exclusive Economic Zone (EEZ) from a given coastal country. Usually also located off the coasts of other States, this area may be subject to acts of piracy from other countries.

## Types d'actes illicites recensés dans ce rapport | Types of illegal acts identified in this report

Navire piraté Attacked vessel/ship	Événement au cours duquel les assaillants ont eu le contrôle du navire ou de son équipage. An incident involving aggressors taking control of the ship or crew members.
Attaque Attack	Événement au cours duquel des assaillants ont fait usage de leurs armes ou mené une action contre le navire sans parvenir à en prendre le contrôle. Incident during which aggressors used their weapons or conducted an attack against the ship, without being able to take control of her.
Approche Attempt	Événement au cours duquel l'intention de mener une attaque a été clairement établie. Incident identified with a clear intention to carry out an attack.
Vol Robbery	Vol réalisé dans les eaux territoriales. Robbery/theft perpetrated within territorial waters

### Événements de piraterie et de brigandage - évolution annuelle Annual evolution of piracy and robbery incidents

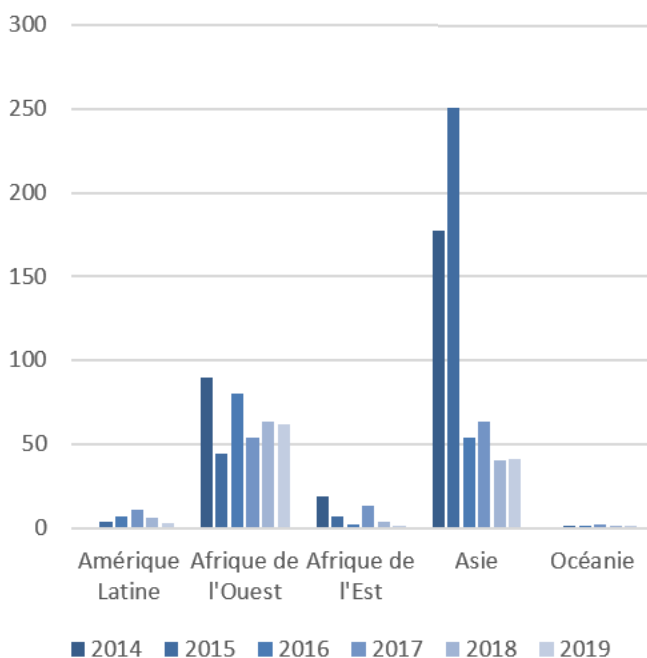

## Dix principales approches maritimes touchées par le phénomène de la piraterie et brigandage en 2019

### 10 piracy and robbery most-affected maritime approach in 2019

**Piraterie par zone**  
Piracy incidents per area

**Brigandage par zone**  
Robbery per area

Au plan qualitatif, en Amérique Latine, la dynamique provient de l'augmentation du brigandage principalement observé dans les Caraïbes. Dans le golfe de Guinée le nombre d'évènements liés à la piraterie reste sensiblement similaire à ceux des années précédentes tandis que les actes de brigandage sont en très forte augmentation.

From a qualitative point of view, as regards Latin America, the evolution of the situation results mainly from the increase in robberies observed in the Caribbean. In the Gulf of Guinea the number of events related to piracy remains more or less the same as in previous years, while acts of robbery are increasing sharply.

### 2.1 Golfe de Guinée | Gulf of Guinea

#### 2.1.1. Evolution du nombre d'événements | Evolution of the number of incidents

Le golfe de Guinée a enregistré 111 événements liés à la piraterie et au brigandage au cours de l'année 2019. Malgré une baisse observée en début d'année, ce chiffre est en légère augmentation par rapport à l'an passé en raison d'une recrudescence des événements relevés au mois de décembre. Il reste cependant proche de la moyenne des événements annuels constatés ces dernières années. Le nombre d'événements dans les approches maritimes du Nigéria est en légère baisse par rapport à 2018 et représente près de la moitié des événements reportés dans le golfe de Guinée.

111 incidents of piracy and robbery were recorded in the Gulf of Guinea in 2019. Even if a decrease was observed at the beginning of the year, the annual level is slightly increasing due to a sharp rise in December. However, it remains close to the average of annual incidents recorded in recent years. The number of incidents perpetrated in the Nigerian approaches is slightly lower than in 2018, representing almost 50% of the piracy and robbery acts reported in the Gulf of Guinea.

#### Approches maritimes concernées - 2018 Concerned maritime approaches 2018

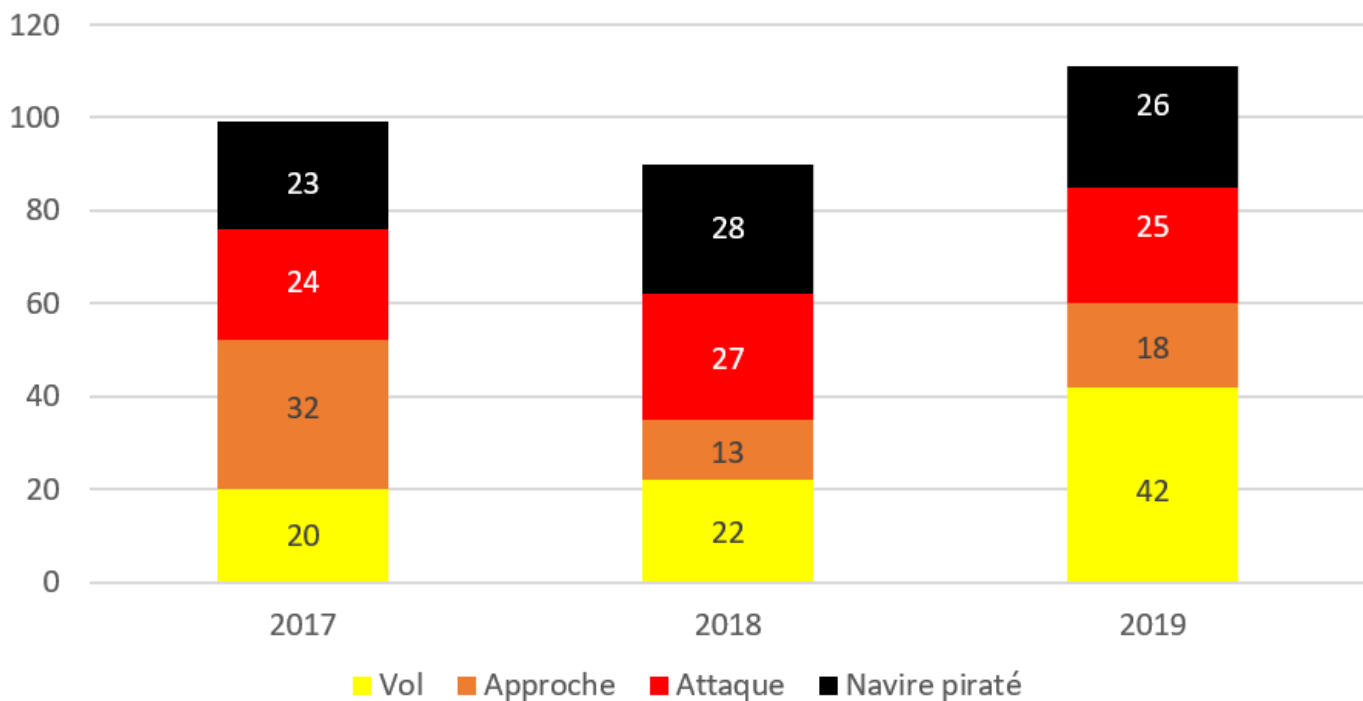

#### Approches maritimes concernées - 2019 Concerned maritime approaches 2019

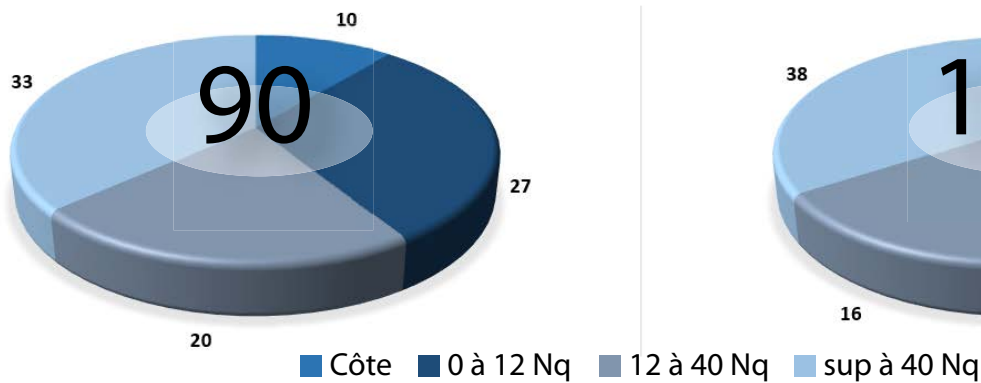

**Golfe de Guinée - nombres d'événements**  
**Gulf of Guinea – number of incidents**

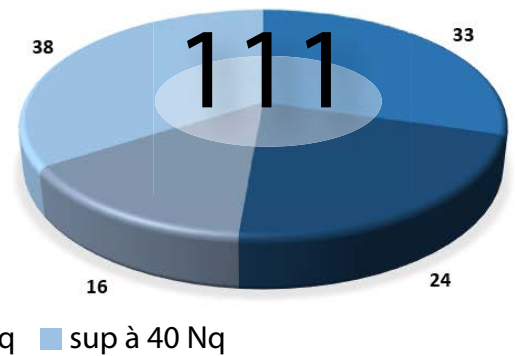

En 2019, on constate une augmentation du nombre d'événements, principalement en raison des vols commis au mouillage ou dans un port. Ce phénomène peut s'expliquer par le mauvais temps qui a régné sur la majeure partie de la zone entre juin et octobre 2019 et qui a obligé les délinquants et criminels à opérer le long des côtes. Si le nombre de navires piratés reste stable, on relève une augmentation sensible du nombre d'enlèvements.

One notices an increase of the number of events, mainly because o robberies committed at anchor or in port. This situation could be explained by the bad weather conditions that prevailed over a large part of the area between June and October 2019, forcing criminals to operate along the coastline. If the number of hijacked ships remain stable, a significant increased of kidnappings has been observed.

**Distance à la côte des événements année 2018**  
Coastal distance of incidents in 2018

**Distance à la côte des événements année 2019**  
Coastal distance of incidents in 2019

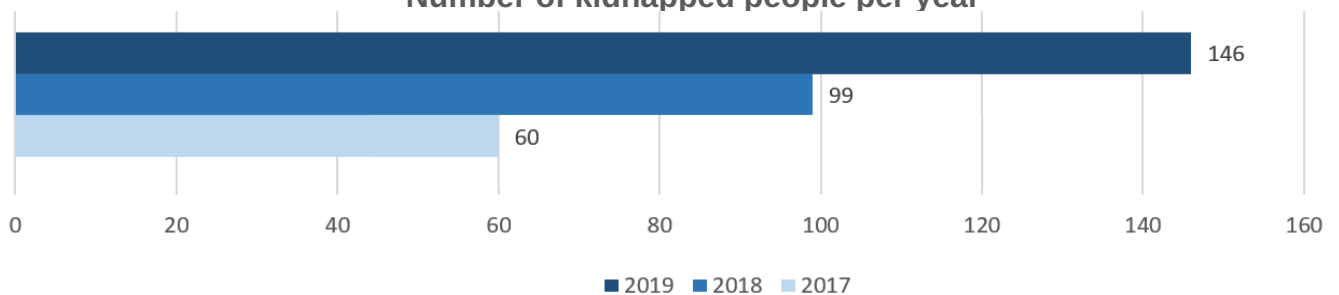

En 2019, le nombre d'actes commis le long des côtes a triplé par rapport à celui de 2018. Ainsi, plus de la moitié des événements a eu lieu à des distances inférieures à 12 nautiques de la côte.

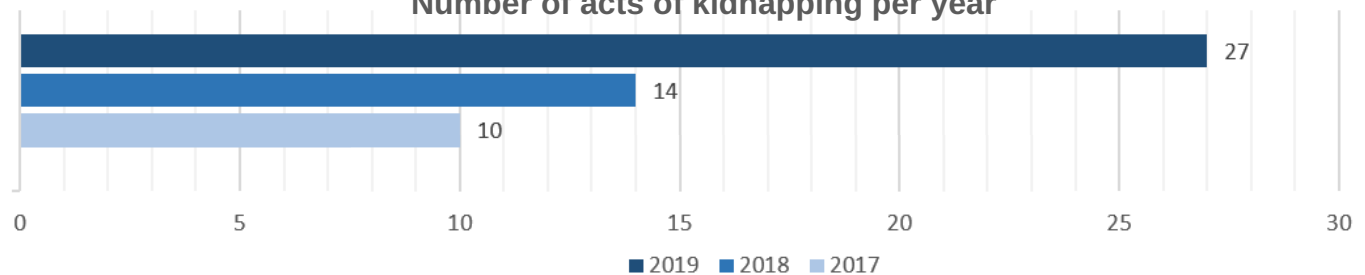

The number of acts perpetrated along the coast was three times higher in 2019 than in 2018. More than 50% of the incidents took place within a distance of 12 nautical miles from the coast.

### 2.1.2. Les enlèvements | Kidnapping

**Nombre de kidnappés par année**  
Number of kidnapped people per year

**Nombre d'actes de kidnapping par année**  
Number of acts of kidnapping per year

Le nombre d'enlèvements est en forte augmentation depuis trois ans. La majorité des enlèvements recensés se concentre dans le fond du golfe de Guinée. Jusqu'au mois de novembre 2019, on observait que les pirates enlevaient moins d'une dizaine d'otages, pris parmi les membres d'équipage.

Le mois de décembre 2019 a été marqué par une recrudescence des enlèvements:

- 5 enlèvements ont eu lieu, représentant 53 otages soit plus d'un tiers du nombre total de personnes kidnappées au cours de l'année 2019;

- 2 enlèvements comportant une vingtaine d'otages chacun ont été recensés.

Si ce mois reste pour le moment exceptionnel, il témoigne d'une augmentation des moyens employés.

La durée moyenne de détention s'allonge : elle est désormais de 33 jours, avec un record de 58 jours.

The number of kidnappings has sharply risen during the past three years. The majority of kidnappings recorded are concentrated in the far end of the Gulf of Guinea. Until November 2019, it was observed that the pirates kidnapped a dozen hostages, taken among crew members.

December 2019 has seen a sharp increase of the number of kidnappings:

- 5 kidnapping happened, representing 53 hostages, slightly more than one third of the number of kidnapped people in 2019;

- 2 kidnappings have been observed, during which roughly 20 people have been kidnapped each time.

If this month remains exceptional for the moment being, it reveals an increase in the means employed.

The average length of hostage is increasing: it is now 33 days, the longest on record being 58 days.

### 2.1.3. Saisonnalité des événements | Incident seasonality

Les incidents relevés ces trois dernières années montrent un phénomène saisonnier : une augmentation du nombre d'incidents est en général relevée entre novembre et mars, du fait de conditions plus favorables (période sèche).

The incidents recorded over the last three years reveal a seasonal pattern: due to more favourable weather conditions (dry period) an increase in the number of incidents is observed between November and March.

### 2.1.4. Zone d'actions des pirates | Areas of piracy

La plupart des actes recensés dans les pays du golfe de Guinée, sont le fait de brigands locaux. Toutefois, des raids lointains de pirates sont régulièrement observés dans un croissant s'étendant du large du Togo, à la Guinée Equatoriale, notamment le long des côtes ou sur les zones de mouillage.

Most recorded incidents in the countries of the Gulf of Guinea were perpetrated by local criminals. Yet, raids committed by pirates are regularly observed within a zone extending from the open sea off Togo to Equatorial Guinea, notably along the coasts or within anchoring areas.

Pirates observés le 2 mars 2019 (Togo) à gauche et le 3 mars 2019 (Bénin) à droite avec le même équipement.  
Leftside : pirates observed on May, 2nd 2019 (Togo) and rightside : March, 3rd 2019 (Benin), with the same equipment.

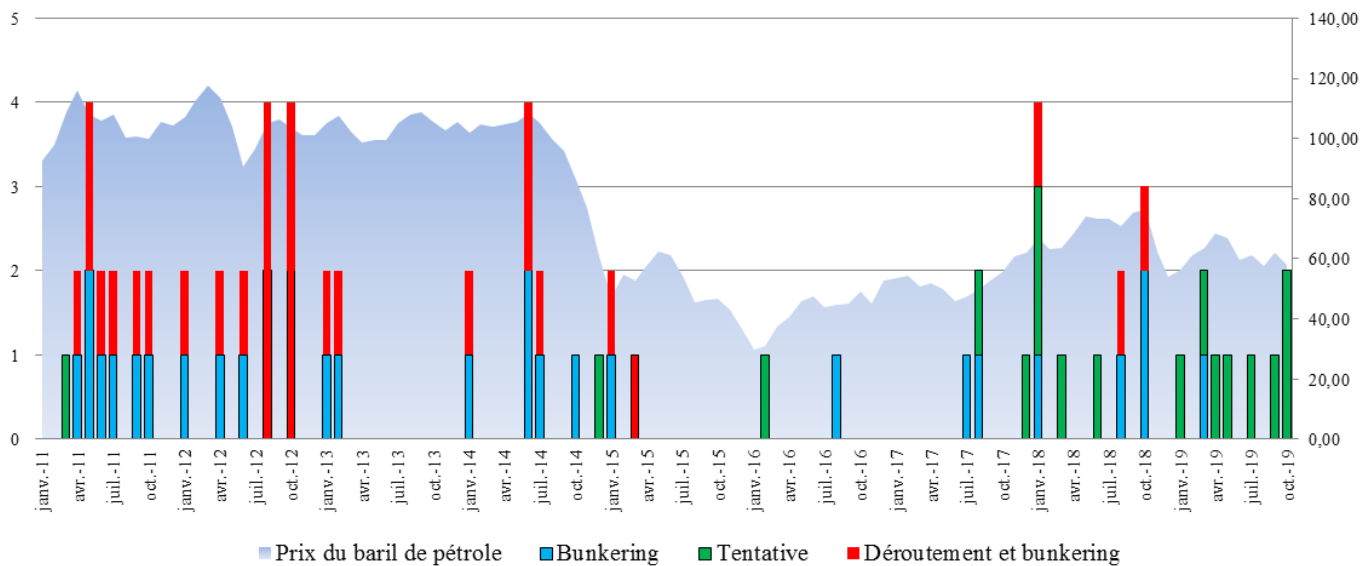

## 2.1.5. Influence du prix du baril de pétrole | Influence of the oil barrel price

Les soutages délictueux des cargaisons de pétroliers, appelés aussi *bunkering*, semblent directement liés aux variations de prix du pétrole, les détournements de ces derniers demandant une logistique importante (matériel, personnel pour se rendre maître d'un navire cible, « affrètement » d'un autre navire...). Ces opérations deviennent théoriquement rentables dès lors que le prix du baril dépasse les 60\$. Elles sont cependant principalement observées lorsque les prix avoisinent les 100 \$ US.

The criminal bunkering of oil tanker cargoes seems to be directly connected to variations in oil prices, as the hijacking of such vessels requires considerable logistics (equipment, crew to take over the target vessel, "chartering" of another ship...). In theory, such operations become profitable from the moment the price of a barrel exceeds \$60, but are mainly observed out when prices are around US\$100.

### Bunkering dans le golfe de Guinée et prix du baril de pétrole Bunkering in the Gulf of Guinea and oil barrel price

Le seuil de rentabilité d'un vol ponctuel est cependant bien inférieur pour les brigands opérant au mouillage car ils emploient des fûts métalliques pour pouvoir voler quelques litres de carburant, qu'ils revendent sur le marché noir local. Ces événements ont généralement lieu dès que le prix du baril dépasse les 40 \$ US.

The profitability threshold of a simple bunkering is much lower for criminals operating at anchorage, as they generally fill metal barrels with the fuel that will be sold later on the local black market. These incidents usually occur when the barrel price is above 40\$.

Les prises de vues réalisées par un pétrolier lors des deux attaques menées contre lui au cours de la nuit du 6 au 7 octobre 2019 ont permis de confirmer ce mode opératoire, constaté à la fois à quai comme dans les zones de mouillage de Lagos.

The pictures taken by the crew of an oil tanker during the two attacks perpetrated during the night of October 6th to October 7th 2019, allowed to confirm that this mode of operation is used whether the ship is at at pier or stationed withing the anchoring zones of Lagos.

## 2.2 Analyse par État côtier | Analysis per coastal state

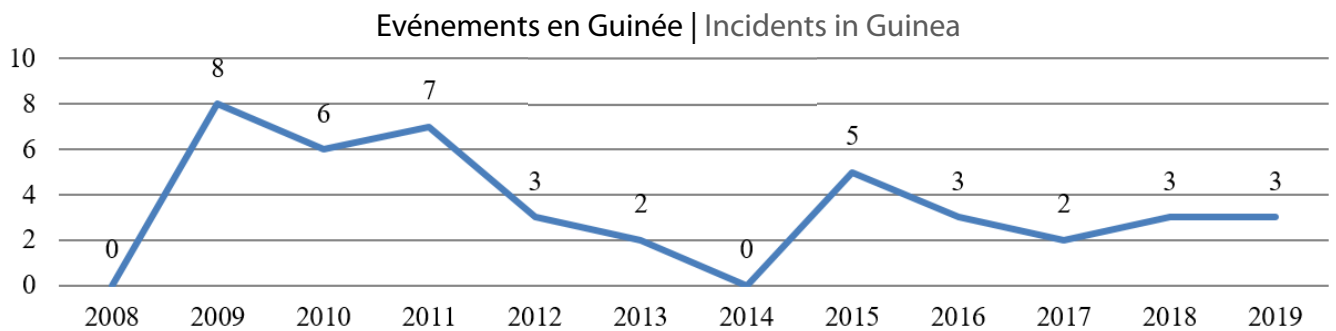

### 2.2.1. Guinée | Guinea

Le nombre d'événements au large de la Guinée reste stable depuis plusieurs années. Il s'agit de brigandage mené contre des navires dans les zones de mouillage situées au sud des îles de Loos ou dans le port de Conakry.

Ces événements se caractérisent par la présence systématique d'armes à feu ainsi que de violence commise à l'encontre des membres d'équipage.

The number of incidents recorded off the coast of Guinea has remained stable in the last few years. Most of the time, incidents occur in the form of local robberies targeting ships stationed in the anchoring areas located south of Loos islands or in the port of Conakry.

These incidents involve the systematic presence of firearms as well as the use of violence against crew members.

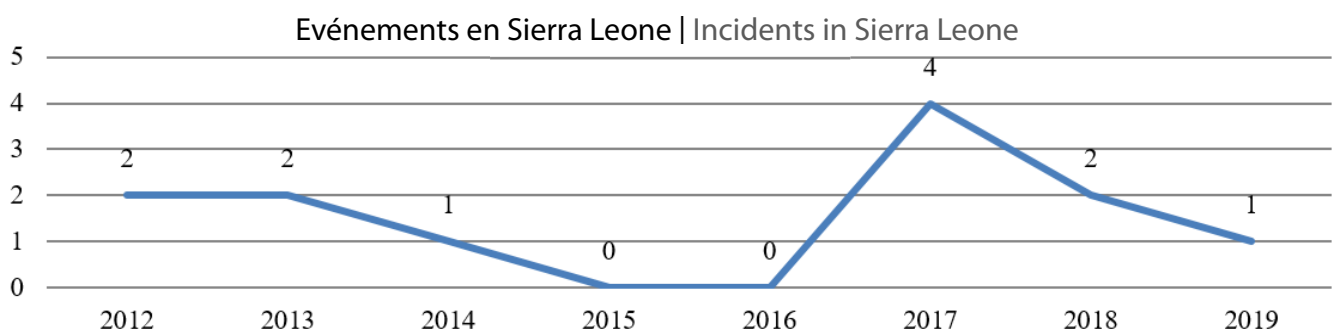

### 2.2.2. Sierra Leone

Les événements en Sierra Leone se déroulent au large de Freetown et sont probablement l'œuvre de brigands locaux.

Ces derniers disposent d'armes blanches avec lesquelles ils menacent et blessent parfois des membres d'équipage.

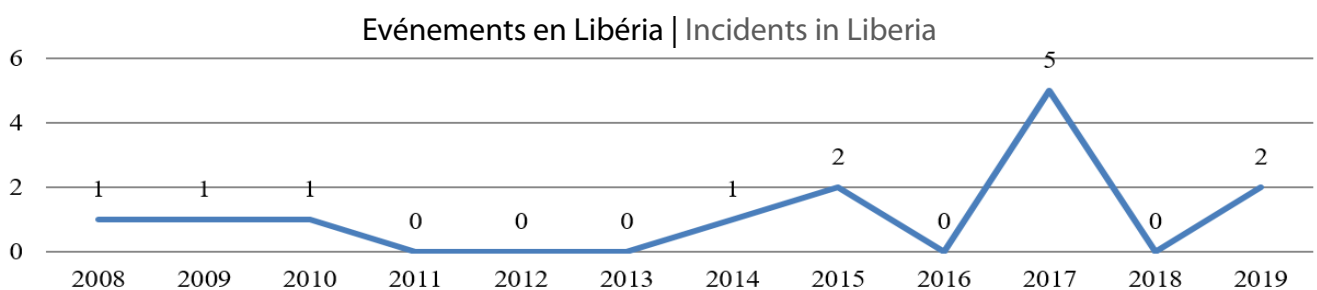

Attacks in Sierra Leone take place off Freetown and are perpetrated by local criminals using knives and bladed weapons to threaten and sometimes injure crew members.

### 2.2.3. Libéria

Le Libéria est touché par de rares événements de brigandage probablement commis par acteurs locaux. Ces derniers abordent parfois des navires avec des armes blanches dont ils se servent pour menacer, d'avantage que pour blesser.

Liberia is affected by rare robbery incidents possibly perpetrated by the local attackers. There, they sometimes board ships with knives that are used to threaten, rather than to injure.

## 2.2.4. Côte d'Ivoire | Côte d'Ivoire

La Côte d'Ivoire n'a récemment pas connu d'incursion de pirates dans ses approches et fait face à un brigandage local comme dans de nombreux autres grands ports africains.

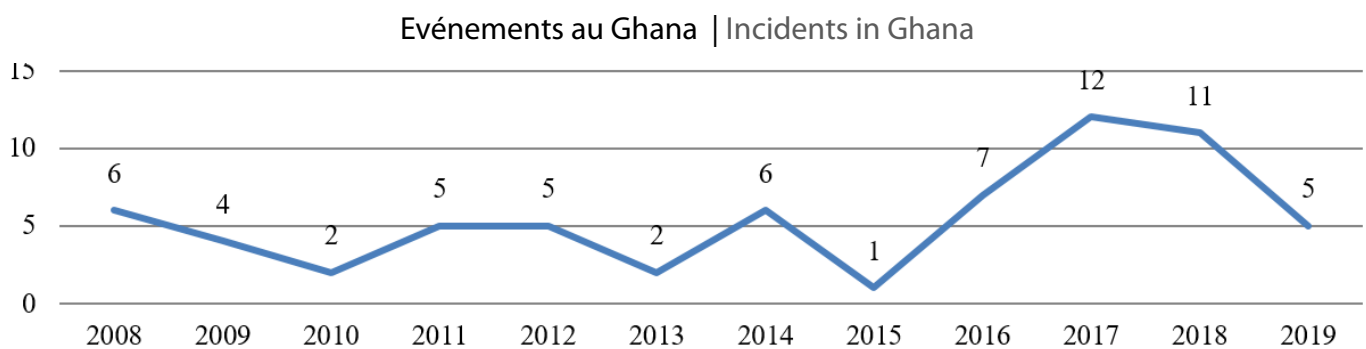

Côte d'Ivoire has not been recently confronted with pirate attacks in its coastal approaches. Like in many other major African ports, Côte d'Ivoire faces local robbery.

## 2.2.5. Ghana | Ghana

Le Ghana est épisodiquement touché par l'extension maritime des actes illicites. Tema et surtout Takoradi ont été touchés par des événements de brigandage.

Ghana is regularly hit by the extension of illicit acts to the maritime domain. Tema, and especially Takoradi were recently impacted by acts of robbery.

## 2.2.6. Togo | Togo

Le Togo subit une recrudescence d'événements durant l'année 2019. En mai 2019, l'intervention des autorités togolaises, qui ont engagé 2 bâtiments et un groupe d'intervention, a permis de contrer une tentative de détournement d'un pétrolier. Les autorités togolaises ont par ailleurs renforcé la sécurité du port de Lomé et de sa zone de mouillage en y déployant des équipes de protection.

Togo faced a growing number of piracy incidents in 2019. In May 2019, the intervention of the Togolese authorities who engaged 2 ships together with an intervention unit allowed to stop a hijacking attempt on an oil tanker. Togolese authorities have reinforced the Lomé anchorage and port safety by deploying protection teams.

## 2.2.7. Bénin

Comme tous les pays de la région, le Bénin est sujet aux actes de brigandage et piraterie. Leur nombre reste faible. Toutefois, suite à l'attaque menée contre un vraquier le 2 novembre dernier dans la zone sécurisée de Cotonou, le conseil des Ministres a adopté un décret stipulant que « (...) tout navire de commerce, quelle que soit sa nationalité, au mouillage dans les espaces maritimes sous souveraineté de l'Etat béninois et plus particulièrement en zone d'attente du port de Cotonou, avec l'accord du capitaine, doit accueillir à son bord une équipe de protection armée à charge de la République du Bénin ».

Like all the other countries in the region, Benin is often victim to acts of robbery and piracy but their number remains limited. However, following the attack on a bulk carrier on November 2nd, 2019 in the secured area of Cotonou, the Council of Ministers adopted a decree stating that "any commercial vessel, whatever its nationality, anchored in the maritime areas under the sovereignty of the Beninese State, and more particularly in the holding area of the port of Cotonou, must have onboard with the agreement of the captain, an armed protection unit at the expense of the Republic of Benin".

Événements au Bénin | Incidents in Benin

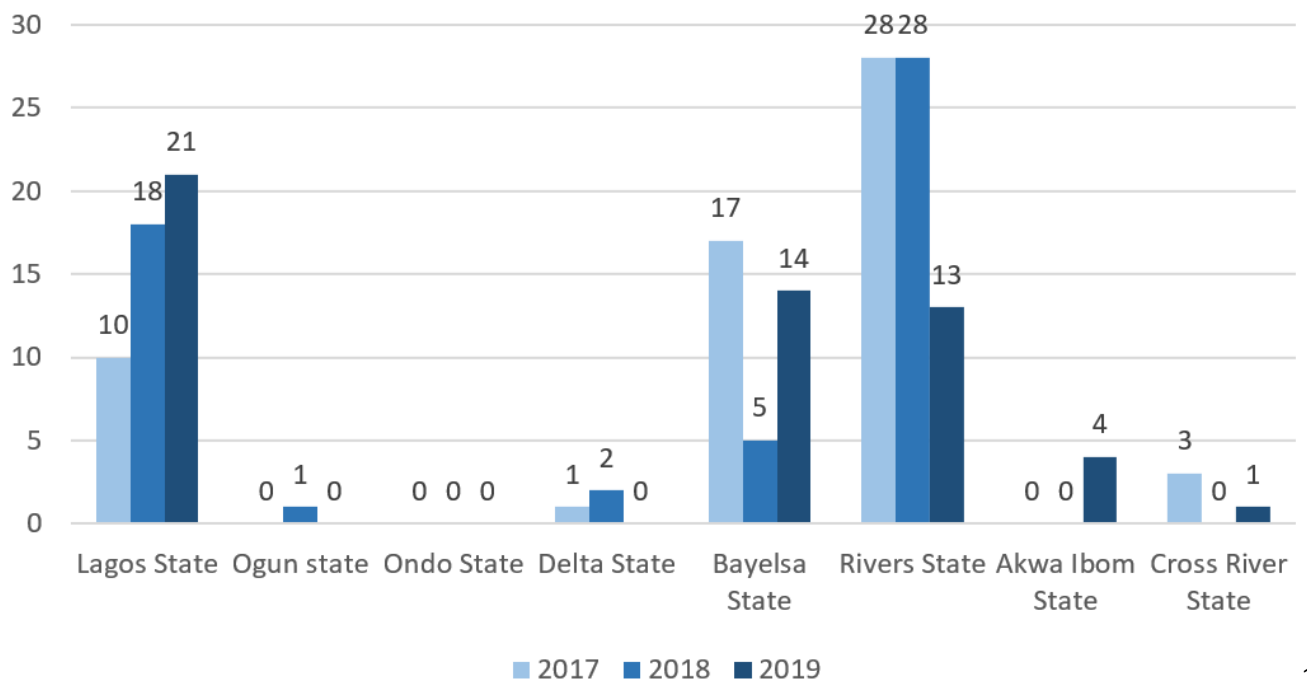

## 2.2.8. Nigéria

En 2019 comme en 2018, la plupart des événements de piraterie et de brigandage se sont déroulés au large des États de Lagos, de Bayelsa et de Rivers.

Like in 2018, most incidents of piracy and robbery that occurred in Nigeria in 2019 were recorded off the states of Lagos, Bayelsa and Rivers.

Événements au Nigéria | Incidents in Nigeria

## ► Lagos State

Le brigandage à Lagos se déroule majoritairement dans la zone de mouillage située face à l'embouchure du fleuve Ogun. Le mode opératoire consiste à aborder le navire de nuit et le plus discrètement possible afin de s'introduire dans ses soutes et d'y voler des matériels pour revente sur le marché noir local. La majorité de ces événements semble être l'œuvre de brigands locaux agissant sans arme.

Acts of robbery in Lagos mainly occur in the anchoring zone that faces the mouth of the Ogun River. The operating mode consists in approaching the ship at night, as discreetly as possible, to break into the ship's holds and steal equipment which is then sold on the local black market. The majority of these attacks are carried out by local bandits operating unarmed.

## ► Bayelsa State et Rivers State

Le brigandage à Bayelsa vise essentiellement les communautés locales au cours d'attaques perpétrées contre les pêcheurs ou les remorqueurs de soutien lors de leurs transits côtiers. La prise d'otages est l'un des modes opératoires le plus souvent constaté. Les pirates locaux s'attaquent aussi à des navires à fort tonnage lors de leurs transits au large des côtes de Bayelsa.

Dans les approches de Rivers State, les pirates profitent des transits des navires marchands vers Port Harcourt pour mener leurs attaques dans la Bonny River. La plupart des événements sont donc relevés dans une zone située entre les eaux de la Bonny River et 70 nautiques des côtes.

Au cours des dernières années, l'Etat nigérian a mené des actions de lutte contre le brigandage et la piraterie. On a observé une baisse du nombre d'actes commis à Bayelsa tandis que leur nombre a augmenté à Rivers State.

Robbery in Bayelsa mainly targets local communities in attacks on fishermen or against supply tugboats during their coastal transits. Hostage-taking is one of the most common mode of operation. Local pirates also target high-tonnage vessels during their navigation off the Bayelsa coast.

In the coastal approaches of Rivers State, Nigerian pirates target merchant ships transiting towards Port Harcourt to conduct their attacks in the Bonny River. Most piracy incidents are therefore recorded in an area between the waters of the Bonny River and 70 nautical miles off the coast.

In recent years, the Nigerian state has conducted actions against piracy and robbery. A decrease in the number of acts committed in Bayelsa has been reported while the number of acts perpetrated in Rivers State has grown.

## ■ 2.2.9. Cameroun | Cameroon

Le nombre d'événements est à nouveau en augmentation depuis deux ans le long des côtes du Cameroun. Des pirates mènent des incursions près des côtes d'Idenau et prolongent parfois leurs raids jusqu'à Douala (4 attaques consécutives à la fin de l'été 2019). En réaction, le gouvernement déploie des équipes de protection sur les navires au mouillage.

The number of incidents recorded along the coasts of Cameroon has increased again in the last two years. Pirates carry out incursions near the coast of Idenau and sometimes extend their raids to Douala (4 consecutive attacks at the end of the summer 2019). In response, the government is deploying protection teams on ships at anchor.

Evénements au Cameroun | Incidents in Cameroon

## 2.2.10. Guinée Equatoriale | Equatorial Guinea

Les évènements de piraterie et de brigandage étaient assez rares dans les approches de la Guinée Equatoriale et semblent apparaitre de manière plus prononcée en 2019

Few events of piracy and robbery used to be observed off the coasts of Aquatorial Guinea. They now seem to occur more often in 2019.

Evénements au Guinée Equatoriale | Incidents in Equatorial Guinea

## 2.2.11. Sao Tomé et Principe | Sao Tomé and Principe

Les évènements de piraterie et de brigandage sont extrêmement rares dans les approches de Sao Tomé et Principe.

Piracy and Robbery is very seldom observed in the approches of Sao Tomé and Principe.

Evénements a Sao Tomé et Principe | Incidents at Sao Tomé and Principe

## 2.2.12. Gabon | Gabon

Les évènements de piraterie et de brigandage étaient extrêmement rares depuis 2013. Ils ont fortement augmenté au mois de décembre 2019 (6 évènements) qui a été marqué par 5 attaques de navires au cours de la même nuit. Durant l'une de ces attaques, le capitaine d'un des navires a été tué par balles.

Events of piracy and robbery used to occur seldom since 2013. They have sharply increased during December 2019 (6 events) which has seen 5 attacks conducted during the same night. During one of these attacks, the captain of one of the attacked ship has been shot.

Evénements au Gabon | Incidents in Gabon

### 2.2.13. République du Congo | Republic of Congo

La République du Congo connaît des épisodes réguliers de brigandage menés dans la zone de mouillage de Pointe Noire.

The Republic of Congo sees regular events of robbery at anchor off Pointe Noire.

Événements en République du Congo | Incidents in Republic of Congo

### 2.2.14. République démocratique du Congo | Democratic Republic of Congo

Les événements de piraterie et de brigandage sont extrêmement rares dans les approches de la République Démocratique du Congo.

There are very few events of piracy and robbery in the approaches of the Democratic Republic of Congo.

Événements en République Démocratique du Congo | Incidents in Democratic Republic of Congo

### 2.2.15. Angola | Angola

Le brigandage en Angola reste exceptionnel en 2019 avec 1 seul vol reporté.

During 2019, robbery remains marginal in Angola with only 1 theft reported.

Événements en Angola | Incidents in Angola

## 2.3 Amérique latine et arc des Caraïbes | Latin America and the Caribbean islands arc

L'Amérique latine et l'arc des Caraïbes ont enregistré 135 événements au cours de l'année 2019. Ce chiffre est en augmentation régulière depuis 2015.

Latin America and the Caribbean islands arc recorded 135 incidents during the year 2019. This number has been increasing continuously since 2015.

**Amérique Latine et Mer des Caraïbes - nombre d'événements**  
 Number of incidents in Latin America and in the Caribbean Sea

En 2019, de nombreuses îles de la mer des Caraïbes ont subi une augmentation du nombre d'actes de brigandage, portant essentiellement sur les navires de plaisance. Saint Vincent, les Grenadines et la Grenade figurent parmi les îles les plus touchées.

Plusieurs pays d'Amérique latine sont également touchés. Le brigandage frappe les navires de fort tonnage lorsqu'ils sont au mouillage, essentiellement devant le Pérou, le Venezuela et la Colombie.

Many islands in the Caribbean Sea experienced an increasing number of thefts in 2019, mainly involving pleasure boats. Saint Vincent, The Grenadines, and Grenada are among the most affected islands.

Several Latin American countries are also concerned. Criminals strike large ships at anchor, mainly in front of Peru, Venezuela and Colombia.

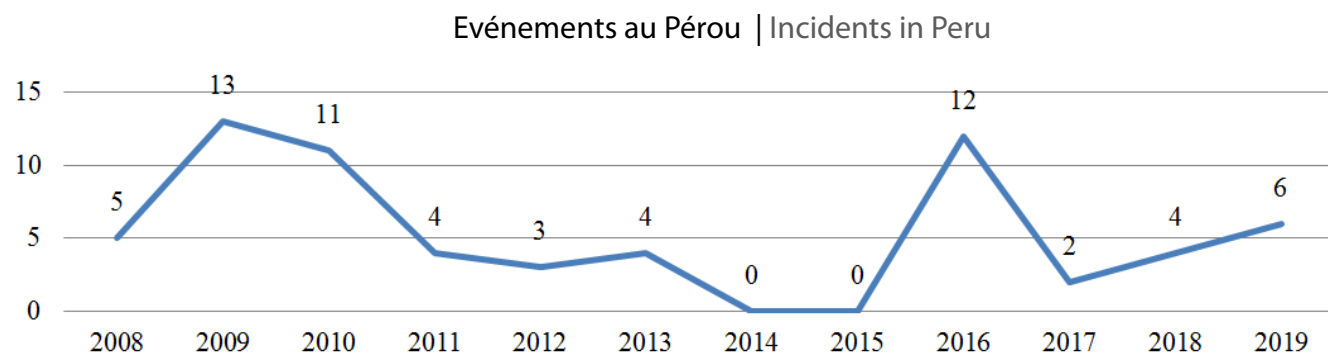

## 2.3.1. L'Amérique du Sud | South America

### ► Pérou

En dehors d'un pic observé en 2016, le nombre d'événements recensés augmente de manière régulière depuis 2015. Les actes se concentrent sur Calao, port de Lima.

### ► Peru

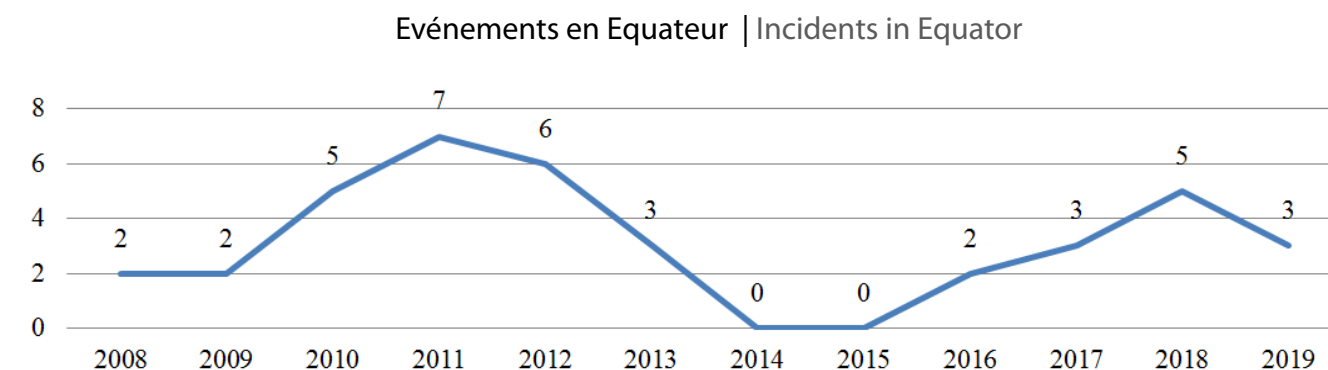

Despite a peak observed in 2016, the number of incidents has been increasing regularly since 2015. Most incidents take place in the area of Calao, harbor of the capital city Lima.

### ► Equateur | Equator

Peu d'incidents ont été reportés au cours de l'année 2019. Après une hausse régulière, une tendance à la baisse semble s'amorcer. Les actes se concentrent devant Guayaquil.

Few incidents were reported in 2019. After a continuous rise, we are now seeing a decrease. Acts are concentrated in the area of Guayaquil.

### ► Colombie | Colombia

Pour la Colombie, les deux principales zones de brigandage se trouvent à Buenaventura, sur la côte Pacifique et à Carthagène des Indes sur la mer des Caraïbes. Le nombre d'événements se maintient depuis 2009.

In Colombia, the two most affected areas are Buenaventura, on the Pacific coast and Cartagena de Indias on the Caribbean Sea. The number of incidents has remained stable since 2009.

## ► Venezuela | Venezuela

Un pic a été observé au cours des années 2017 et 2018. L'année 2019 est marquée par l'amorce d'une baisse significative. La principale zone de brigandage se trouve à Barcelone et ses alentours : Guanta et Puerto La Cruz.

After a peak in 2017 and 2018, a significant decrease was observed in 2019, with the most affected area located in Barcelona and its surroundings: Guanta and Puerto la Cruz.

Événements en Venezuela | Incidents in Venezuela

## ■ 2.3.2. L'Amérique centrale | Central America

### ► Panama | Panama

Le Panama poursuit la hausse constante amorcée depuis 2013 du nombre d'événements. Ceux-ci sont principalement relevés sur la côte Caraïbes et affectent essentiellement la navigation de plaisance.

Panama faces a steady rise in the number of incidents, a trend that started in 2013. Most incidents are recorded on the Caribbean coast and mainly target pleasure boating.

Événements au Panama | Incidents in Panama

### ► Honduras | Honduras

Des actes de piraterie ont été relevés au large du Honduras. Ces actes sont commis contre les navires de plaisance en transit, lorsqu'ils passent à proximité du haut fond de Gordo Bank.

Criminal activities were recorded off the coast of Honduras, most of them being perpetrated against pleasure boats transiting in the vicinity of Gordo Bank.

Événements au Honduras | Incidents at Honduras

## ► Guatemala | Guatemala

Les actes relevés ont été commis contre la navigation de plaisance, dans les zones de mouillage situées au large d'Izabal State.

The incidents observed in this area mainly affect pleasure boating in the anchorage areas located off Izabal State.

Événements au Guatemala | Incidents in Guatemala

## ■ 2.3.3. Mer des Caraïbes

Les événements relevés en mer des Caraïbes affectent essentiellement la navigation de plaisance et se rapportent essentiellement à des vols commis au mouillage.

Most of the incidents recorded in the Caribbean Sea affect pleasure boats and mainly concern acts of theft perpetrated at anchorage.

## ► Haïti | Haiti

La zone de mouillage de Port au Prince est le seul lieu où sont commis des actes de brigandage sur des navires de commerce dans l'arc antillais.

Port-au-Prince is the only place where acts of robbery are perpetrated on merchant vessels in the Caribbean islands arc.

Événements à Haïti | Incidents in Haiti

## ► Iles de l'arc antillais | Islands of the Caribbean arc

L'arc antillais est touché par de nombreux actes de brigandage commis contre la plaisance. Ces actes ont lieu essentiellement au mouillage. St Vincent et les Grenadines, ainsi que Grenade sont les îles les plus touchées par ce phénomène. Sur cette dernière on observe une forte augmentation des faits rapportés au cours de l'année 2019.

Many acts of theft are committed against pleasure boats in the Caribbean arc. These incidents usually occur at anchorage. St Vincent and The Grenadines, as well as the island of Grenade are the most affected locations. A significant rise was observed in 2019.

### Événements en République Dominicaine | Incidents in the Dominican Republic

### Événements à Saint Martin | Incidents in Saint Martin

### Événements à Sainte Lucie | Incidents in Saint Lucia

### Événements à St Vincent et les Grenadines | Incidents in Saint Vincent and The Grenadines

### Événements à la Grenade | Incidents in Grenada

### 3- OCÉAN INDIEN | INDIAN OCEAN

L'océan Indien a connu 25 événements au cours de l'année 2019. Ce chiffre est en forte baisse par rapport à l'an passé et reste bien en deçà de la moyenne des événements constatés sur les 10 dernières années. Aucun navire n'a été détourné en 2019. Deux événements de piraterie ont été reportés. Un seul a eu lieu au large des côtes somaliennes.

La zone du sud de la mer Rouge à l'est du golfe d'Aden concentre encore la majorité des événements. Ces derniers ne sont généralement pas liés à de la piraterie ou du brigandage. En effet, le détroit de Bab-el-Mandeb concentre à la fois des zones de pêche, des routes maritimes liées à l'immigration clandestine ainsi qu'aux différents trafics entre l'Afrique et le Yémen.

L'extension maritime du conflit au Yémen déborde parfois aussi dans le sud de la mer Rouge sans pour autant constituer des actes de piraterie ou de brigandage.

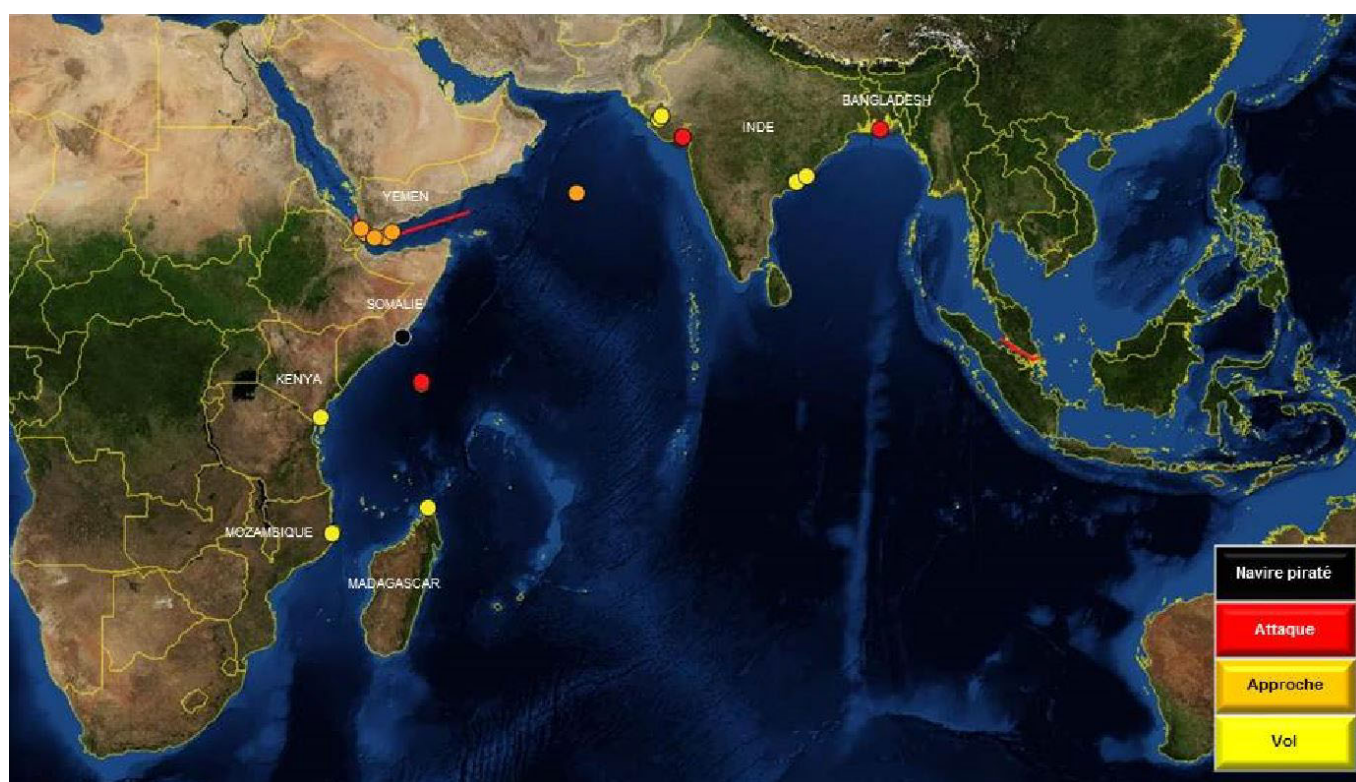

Cette perception des événements est exacerbée par la vigilance accrue et la nervosité des équipages ou des équipes de protection suite à la vague d'attaques de piraterie entre 2008 et 2012.

25 incidents occurred in the Indian Ocean during 2019. In comparison to 2018, this represents a significant drop, far below the annual average of the last 10 years. The number of attacks is also lower compared to 2018. No hijacking was reported in 2019. Two piracy incidents were reported in the Indian Ocean, and only one occurred off the Somali coast.

The area extending from the south of the Red Sea to the east of the Gulf of Aden still concentrates the majority of incidents. These are not generally linked to piracy or robbery. Indeed, the Strait of Bab-el-Mandeb is a combination of fishing areas and maritime routes linked to illegal immigration, as well as to various trafficking between Africa and Yemen.

The maritime extension of the Yemen conflict occasionally spreads into the south of the Red Sea, without being considered as piracy or robbery.

Overly stressed crew members and security team exacerbate the way these incidents are perceived since the series of piracy attacks between 2008 and 2012.

## Océan Indien - nombre d'événements Indian Ocean – recorded incidents

### 3.1. Le golfe d'Aden (GOA) | Gulf of Aden

Des embarcations de pêche sont employées afin de reporter les navires transitant dans le détroit. La cinématique particulière de ces embarcations, qui s'approchent à grande vitesse des bâtiments civils en transit, crée un sentiment d'insécurité à bord qui amène régulièrement les équipages à reporter une attaque de piraterie.

Fishing boats are employed to identify the vessels that transit through the Strait. The way these boats are used, approaching the transiting merchant vessels at high speed, creates a feeling of insecurity on board that leads the crew to mistakenly report a piracy attack.

### 3.2. Le détroit d'Ormuz | Strait of Hormuz

Pour l'année 2019, il n'y a pas de report d'acte de piraterie ou de brigandage.

No act of piracy or robbery has been reported in this area during 2019.

### 3.3. Somalie | Somalia

Au large des côtes somaliennes, les différentes mesures de sécurité et opérations militaires (dont l'opération Atalanta de l'Union européenne) produisent leur effet : seul un cas de piraterie a été recensé au cours de l'année 2019. Ce cas portait sur un navire de pêche qui a essuyé des coups de feu alors qu'il était en transit.

The various security measures and military operations carried out off the Somali coast (including the European Union's Operation Atalanta) are producing their effects: only one case of piracy was reported in 2019, involving a fishing vessel in transit in the Somali Basin, targeted by gunshots.

### Événements en Somalie | Incidents in Somalia

### 3.4. Mozambique | Mozambique

Le Mozambique fait face à de rares événements, probablement menés par des brigands locaux, dans les zones de mouillage de Beira et de Nacala.

Mozambique is affected by rare incidents perpetrated by robbers in the anchorage areas of Beira and Nacala.

### Événements au Mozambique | Incidents in Mozambique

### 3.5. Tanzanie | Tanzania

Aucun événement n'a été reporté en 2019, ce qui vient confirmer la tendance à la baisse des dernières années.

No incident was recorded in 2019, confirming the decreasing trend observed over the past few years.

### Événements en Tanzanie | Incidents in Tanzania

### 3.6. Kenya | Kenya

Depuis 2012, le port de Mombassa ne fait plus face qu'à de très rares événements de brigandage.

Few robberies have been reported in the port of Monbassa since 2012.

Événements au Kenya | Incidents in Kenya

### 3.7. Inde | India

Le nombre d'événements de brigandage en Inde est en forte baisse depuis trois ans.

The number of robberies in India has dropped drastically over the past three years.

Événements en Inde | Incidents in India

### 3.8. Bangladesh | Bangladesh

Alors que depuis 10 ans le mouillage de Chittagong voyait le report d'une dizaine d'attaques par an, aucun événement n'a été annoncé en 2019 par les navires y faisant escale.

Though nearly ten attacks a year had been recorded over the past ten years in the anchorage area of Chittagong, no report was made by ships calling in the area in 2019.

Événements à Chittagong (Bangladesh) | Incidents in Chittagong (Bangladesh)

### 4.1. Analyse générale | Global analysis

Le Sud-Est asiatique a enregistré 86 événements liés à la piraterie au cours de l'année 2019. Ce chiffre est en légère hausse par rapport à l'an passé et reste inférieur à la moyenne annuelle constatée depuis 2010. Le nombre d'événements dans la ZEE de l'Indonésie, bien qu'étant également en baisse constante depuis trois ans, représente encore 59% des faits reportés dans le Sud-Est asiatique.

86 piracy related incidents were recorded in Southeast Asia in 2019, showing a slight increasing trend compared to 2018, and remaining below the average of the yearly incidents that had been observed since 2010. The number of events in Indonesia's EEZ, although also declining steadily over the past three years, still accounts for 59% of reported events in Southeast Asia.

Les brigands sont généralement armés de parangs, grands couteaux à lame recourbée largement utilisés en Insulinde<sup>3</sup>. Des armes à feu sont souvent employées lors des attaques reportées au sud des Philippines.

There, criminals are usually armed with parangs, similar to long cutlasses widely used in island territories (Indonesia, Malaysia, Philippines) located between the west of New-Guinea, the north of Australia, and the southern part of the South China sea. Firearms are frequently used in the attacks recorded in the south of The Philippines.

<sup>3</sup> Ensemble des îles d'Asie (Indonésie, Malaisie et Philippines) situées à l'ouest de la Nouvelle-Guinée (Mélanésie), au nord de l'Australie et au sud de la mer de Chine méridionale.

<sup>3</sup> All Asian islands (Indonesia, Malaysia and the Philippines) located west of New Guinea (Melanesia), northern Australia and south of the sea south China.

## Sud-Est asiatique - nombre d'événements Southeast Asia – Number of incidents

### 4.2. Les détroits de Malacca et de Singapour | Malacca and Singapore Straits

Après avoir connu plus de 160 événements en 2014 contre des navires en transit dans le DST de Singapour, le nombre d'attaques avait fortement baissé pour ne compter qu'une dizaine d'attaques en 2018.

Cette tendance s'est inversée au cours de l'année 2019 :

- ▶ 15 remorqueurs ont été attaqués lors de leurs transits dans le rail est-ouest, au niveau de Tanjung Piai. Ces événements pourraient être l'œuvre de brigands locaux, venus de Malaisie ;
- ▶ 14 navires à fort tonnage ont été attaqués dans le rail ouest-est, au sud de la zone de mouillage de l'île de Nipah. Ces événements pourraient être l'œuvre de brigands locaux, venus de l'île de Batam.

Following the 160 incidents against transiting ships recorded within Singapore's TSS in 2014, the number of attacks had significantly dropped reaching a total of only 10 assaults in 2018.

This trend reversed during 2019:

- ▶ 15 tugboats were attacked near Tanjung Piai during their transit in the east-west separation scheme. These attacks may have been perpetrated by local robbers coming from Malaysia.
- ▶ 14 large vessels were attacked in the west-east separation scheme, south of the anchorage area of Nipah island. These incidents may have been perpetrated by local robbers coming from Batam island.

Les assaillants emploient à de rares occasions des armes blanches. Les attaques se déroulent majoritairement à la faveur de la nuit ou au petit matin.

On rare occasions, the aggressors use knives. Most of the attacks happen at night or at dawn.

### 4.3. Indonésie | Indonesia

La baisse du nombre d'événements se maintient en 2019. Sur le plan qualitatif, si les brigands indonésiens disposent parfois d'armes blanches, ils ne s'en servent pas contre les membres d'équipage, préférant fuir dès qu'ils sont repérés. Les attaques sont commises la plupart du temps en pleine nuit afin de bénéficier de l'obscurité.

The number of incidents remained stable in 2019. From a qualitative point of view, though Indonesian criminals sometimes use knives, they don't turn them against crew members preferring to escape as soon as they are spotted. Most of the attacks are perpetrated in the middle of the night to take advantage of darkness.

Événements en Indonésie | Incidents in Indonesia

### 4.3. Malaisie | Malaysia

Le nombre global d'événements continue d'augmenter depuis 2017. En 2019, si moins d'actes de brigandage ont lieu dans les ports ou mouillages en 2019, la situation reste cependant marquée par l'augmentation du nombre de vols commis dans le DST du détroit de Singapour, à l'encontre des barges qui y transitent.

The total number of incidents recorded in Malaysia has continued growing since 2017. In 2019, though fewer robberies were committed in ports or anchorage areas, the situation revealed an increasing number of robberies committed in Singapore's traffic separation scheme against transiting barges.

### 4.4. Philippines | Philippines

Après avoir connu 23 événements en 2017, les Philippines ont réussi à réduire le nombre d'événements de brigandage. Les deux principales zones touchées par ce phénomène restent les baies de Manille et de Batangas. En 2019, deux attaques attribuées à Abu Sayyaf ont été reportées entre les mers de Sulu et de Célèbes.

Following a total of 23 incidents in 2017, The Philippines succeeded in reducing the number of robberies. The two most affected areas remain the bays of Manilla and Batangas. Two attacks, possibly perpetrated by Abu Sayyaf, have been reported between the seas of Sulu and Celebes in 2019.

### 4.5. Vietnam | Vietnam

Le brigandage a connu une baisse significative dans les eaux vietnamiennes depuis quatre ans. Les rares événements reportés en 2019 se sont déroulés devant Hô-Chi-Minh-Ville.

Robberies have considerably decreased in Vietnamese waters over the past four years. The rare incidents reported in 2019 occurred in front in the Hô-Chi-Minh-Ville.

## 5 - MÉDITERRANÉE | MEDITERRANEAN SEA

Les cas de piraterie ou de brigandage reportés en Méditerranée restent exceptionnels.

Cases of piracy or robbery remain exceptional in the Mediterranean Sea.

**Méditerranée - nombre d'événements**  
The Mediterranean Sea – number of incidents

**APPENDIX A**

**CADRE DES ÉVÈNEMENTS RECENSÉS**

**CONTEXT OF THE RECORDED INCIDENTS**

## 1. CADRE JURIDIQUE | LEGAL FRAMEWORK

### 1.1. La piraterie | Piracy.

► La définition actuelle de l'acte de piraterie résulte de l'article 101 de la convention de Montego Bay sur le droit de la mer (10 décembre 1982). Elle le définit comme un « (...) **acte de violence commis à des fins privées, en haute mer, par un navire ou un aéronef contre un navire ou un autre aéronef.** »

► The current definition of piracy results from the article 101 of the Montego Bay Convention on the Law of the Sea (10 December 1982). It is defined as "**any illegal act of violence committed for private ends by a ship or an aircraft against a ship or another aircraft**".

### 1.2. Le brigandage | Robbery.

► Les actes commis dans les eaux territoriales d'un État ne peuvent être qualifiés de piraterie, dans la mesure où ils se produisent dans une zone placée sous la souveraineté d'un État, seul compétent pour les réprimer. Ces actes sont qualifiés de brigandage et définis dans le code de bonne conduite des enquêtes sur les délits de piraterie et de vol à main armée à l'encontre des navires dans la *Résolution A.1025 (26) de l'Organisation Maritime Internationale* qui le définit comme « (...) **un acte illicite de violence ou de détention ou toute déprédation, ou menace de déprédation, autre qu'un acte de piraterie, commis à des fins privées contre un navire, ou contre des personnes ou des biens à son bord, dans les eaux intérieures, les eaux archipélagiques ou la mer territoriale d'un État**».

► Illicit actions perpetrated within the territorial waters of a State cannot be defined as piracy considering that they are taking place within a zone placed under the sovereignty of a state, which has exclusive competence to prosecute them. Such acts are called robbery and defined in the code of practice for the investigation of crimes of piracy and armed robbery against ships in the resolution A.1025 (26) of the International Maritime Organisation as : **any illegal act of violence or detention or any act of depredation, or threat thereof, other than an act of piracy, committed for private ends and directed against a ship or against persons or property on board such a ship, within a State's internal waters, archipelagic waters and territorial sea.**

2. CRITERES DE CLASSIFICATION ETABLIS | ESTABLISHED CLASSIFICATION CRITERIE

<p><b>Navire piraté Hijacking</b></p>	<ul style="list-style-type: none"> <li>▶ Evénement au cours duquel un navire a été capturé : les assaillants ont eu le contrôle du navire ou de son équipage.</li> <li>▶ Incident during which pirates or bandits take the control of a ship. The aggressors have total control of the ship and her crew.</li> </ul>
<p><b>Attaque Attack</b></p>	<ul style="list-style-type: none"> <li>▶ Evénement au cours duquel des assaillants :             <ul style="list-style-type: none"> <li>- ont fait usage de leurs armes ;</li> <li>- ont mené une action à l'encontre d'un navire sans parvenir à monter à son bord ;</li> <li>- sont montés à bord avec l'intention de prendre le contrôle du navire ou de l'équipage sans y parvenir.</li> </ul> </li> <li>▶ Incident during which the aggressors used their weapons and:             <ul style="list-style-type: none"> <li>- Got on board, or weapons;</li> <li>- Implemented specific equipment and gear (ladders, grappling hooks...) designed to get on board, or;</li> <li>- Conducted an action against a ship without having to get onboard, outside a port.</li> </ul> </li> </ul>
<p><b>Approche Boarding</b></p>	<ul style="list-style-type: none"> <li>▶ Evénement au cours duquel l'intention de mener une attaque a été clairement établie :             <ul style="list-style-type: none"> <li>- les assaillants ont pointé leur armement sur le navire ;</li> <li>- du matériel d'abordage (échelle, grappin...) a été observé sans mise en œuvre ;</li> <li>- un comportement cinématique particulier ou une annonce ont été relevés.</li> </ul> </li> <li>▶ Incident during which the intention to attack is clearly established:             <ul style="list-style-type: none"> <li>- Either the aggressors turned their weapons against the ship</li> <li>- Either piracy gear (ladders, grappling hooks) have been detected without being used;</li> <li>- a specific move from the aggressor's boat, or an announcement has been noted.</li> </ul> </li> </ul>
<p><b>Vol Robbery</b></p>	<ul style="list-style-type: none"> <li>▶ Vol réalisé avec ou sans violence dans les eaux territoriales.</li> <li>▶ Theft perpetrated with violence/aggression in territorial waters.</li> </ul>

**APPENDIX F**

**EVÈNEMENTS 2019 - MER MÉDITERRANÉE**

**INCIDENTS IN 2019 – MEDITERRANEAN SEA**

Type of incident	Date Hour Type of move Type of action	Target	Location Country
1	March 26th 2019 11:42pm LT In transit Boarding	Container ship	Off Libya
<p>On March 26th 2019 at 11:42pm LT, an oil tanker transiting off Libya diverted from its route to bring assistance to migrants following the information given from a patrol aircraft engaged in the framework of the Sophia operation. The tanker took onboard the migrants who had left their country using two small boats. The day after, realizing that the tanker was heading back to Libya, the migrants took control of the vessel and forced the captain to sail northbound. The presumed mutineers apparently used tools from the ship to threaten the captain and the chief engineer and force them to change their route.</p> <p><b>Profits: hostage taking</b> <b>Weapons: yes, with use</b></p>			
2	June 27th 2019 10:14 pm LT At anchor Boarding	Merchant ship	Malta
<p>On June 27th 2019 at 10:14pm LT, as a merchant ship was at anchor east of the island of Malta, he made a distress call on VHF channel 16, reporting the boarding of the vessel and a gunshot attack on the captain.</p> <p><b>Profits: unknown</b> <b>Weapons: yes, no use</b></p>			
3	July 30th 2019 07:30am LT At anchor boarding	Pleasure boat	Corsica France

## 3. DOCUMENTATION | DOCUMENTATION

▶ Tous les navires sont incités à adopter les mesures décrites dans le « Best Management Practices to Deter Piracy and Enhance Maritime Security in the Red Sea, Gulf of Aden, Indian Ocean and Arabian Sea » à jour de sa version 5 (BMP 5) applicables sur l’ensemble des mers et océans.

▶ All ships are invited to adopt the measures described in “Best Management Practices to Deter Piracy and Enhance Maritime Security in the Red Sea, Gulf of Aden, Indian Ocean and Arabian Sea”, updated in its version 5 (BMP5) applicable on seas and oceans.

**■ APPENDIX H**

**PRINCIPES DE LA COOPÉRATION NAVALE VOLONTAIRE**

**PRINCIPLES OF THE VOLUNTARY MARITIME COOPERATION**

## 1. GENERALITES | FRAMEWORK.

► La coopération navale volontaire est une démarche volontaire entre les pouvoirs publics et des acteurs privés du monde maritime, favorisant le partage des informations dans le domaine de la sûreté et de la sécurité maritimes.

Le protocole relève du chef d'état-major de la marine (CEMM). Le ministère chargé des transports a connaissance de l'ensemble des protocoles passés et le ministère chargé des affaires étrangères est, quant à lui, informé des protocoles passés avec les armateurs, dirigeants de sociétés étrangères, ou concernant des navires battant un pavillon étranger.

Le suivi de la *coopération navale volontaire* (CNV) est assuré par le CEMM. Annuellement, un bilan de la CNV est réalisé à l'occasion d'une réunion de la *commission interministérielle de sûreté maritime et portuaire* (CISMAP)<sup>(1)</sup>.

► The voluntary maritime cooperation is the result of a free partnership between the French government and the maritime industry. It enable information sharing concerning maritime safety and security.

The protocol structure is under the responsibility of the Chief of Staff of the French Navy. The Ministry of the transport is informed of all signed protocols whereas the ministry in charge of foreign affairs is informed of the protocols signed with shipowners and company managers or as regards ships under a foreign flag.

The management of voluntary maritime cooperation is under the responsibility of the Chief of Staff of the French Navy. Every year, the voluntary maritime cooperation program is assessed on the occasion of a meeting held by the inter-ministerial committee on maritime and port security.

## 2. ITEMS ABORDES PAR LE PROTOCOLE RELATIF A LA COOPERATION NAVALE VOLONTAIRE | ITEMS ADDRESSED BY THE VOLUNTARY MARITIME COOPERATION PROTOCOL.

► Sans être exhaustif, les points ci-dessous figurent dans le protocole-type dédié à la CNV :

- pour les armateurs :
  - la liste et l'identification des navires concernés ;
  - le cas échéant, les zones choisies pour l'application de la CNV ;
- pour les dirigeants de société, la liste et la localisation des infrastructures concernées ;
- pour les armateurs et les dirigeants étrangers, les particularités respectivement appelées par les États du pavillon de leurs navires et la nationalité de leurs sociétés ;
- les coordonnées des parties ;
- la désignation des points de contact ;
- les modalités pratiques des échanges ;
- les règles de confidentialité et de protection des données échangées ;
- les responsabilités des parties ;
- la durée de validité du protocole.

(1) Cf. Instruction interministérielle n° 230/SGDSN/PSE/PSN/NP du 27 juin 2018 relative à l'organisation et à la coordination de la sûreté maritime et portuaire.

► Without being exhaustive, the following items are mentioned in the standard protocol dedicated to voluntary maritime cooperation:

- For shipowners:
  - List and identification of the ships concerned
  - If applicable, the areas selected for the implementation of the voluntary maritime cooperation
- For company CEOs, the list and localization of the infrastructures concerned;
- For shipowners and foreign statesmen, the specificities respectively called by their ships' flag States and the nationality of their companies;
- The details of each party
- The designation of contact points
- The practical modalities of exchanges
- Rules of confidentiality and protection of exchanged data
- Responsibility of the parties
- Validity period of the protocol.

### 3. ADHESION DES NAVIGATEURS DE PLAISANCE/SKIPPERS/YACHTING | SUBSCRIPTION OF SEAMEN FOR PLEASURE BOATING / SKIPPERS / YACHTING.

► Pour les navigateurs de plaisance, conformément au paragraphe 2.1. de l'instruction interministérielle relative à la coopération navale volontaire<sup>(2)</sup>, leur adhésion à la CNV prend la forme simplifiée d'une communication par ces derniers des informations requises et l'acceptation des conditions générales, telles qu'approuvées par le CEMM. La nature des informations, les moyens de communication requis *a minima* et les conditions générales susmentionnées sont disponibles sur le site du ministère chargé des affaires étrangères, à la rubrique « Conseils aux voyageurs », sur le site du ministère chargé de la mer, rubrique « plaisance et loisirs nautiques » et sur le site de la fédération française de voile, rubrique « sécurité ».

► As regards pleasure boating, in accordance with the paragraph 2.1 of the inter-ministerial directive on voluntary maritime cooperation, their subscription takes the form of a simplified communication of the information required, and the acceptance of the general terms, as approved by the Chief of Staff of the French navy. The nature of this information, the communication devices required a minima, as well as the general terms mentioned above are available from the website of the Ministry of foreign affairs, section "Conseil aux voyageurs", on the website of the Ministry in charge of the Sea, section "Plaisance et loisirs nautiques", and on the website of the French Sailing Federation (FFV), section "sécurité".

(2) Cf. Instruction interministérielle n° 165/SGDSN/PSE/PSN du 29 avril 2019 relative à la coopération navale volontaire.
